Good morning Andy,

Attached is a short summary of the activities undertaken by DuPont and Chemours in the vicinity of the Washington Works facility. Since sampling is ongoing, and new wells are continually being evaluated, the numbers are increasing. I also provided maps depicting sampling locations for both PFOA and HFPO-DA (GenX). Since some of this information may be considered confidential, please do not distribute outside the Agency. Please let me know if there is anything else you need at this time. Thanks.

Rick and Roger,

I'm finally getting back to responding to the internal comments on the Galloway et al. GenX in the Parkersburg area paper.
